

The **ESAD** Association  
(«Education, Health and  
Development Assistance») is a  
french «Loi 1901» association whose  
main objectives are to bring help and  
support to the most vulnerable  
populations by giving them access to  
Education, Health and Development.

## MEDICAL PROJECT

to equip the hospitals of Kaolack (Senegal)

You want to help others?

***Help us!***

Give the most precious asset in this life :

***Health***

*Example of equipment given by the Finnish organization which we'll load in the container to be sent to Kaolack*

### Who are we?

At the instigation of it's Honorary President, the ESAD Association has been created in 2012 by senegalese men and women living in France. Today, it has 165 members in Europe and Senegal.

### Our activities

Within the framework of our missions, ESAD runs several activities in Senegal and in France: agricultural activities, food distribution, support to the victims of floods, collections of clothes and shoes, etc.

### Our partners

The *African American Islamic Institute* (IIAA) based in Senegal is our partner.

## MEDICAL PROJECT

Benefiting from the joint participation of several associations and organizations located in different countries - Senegal, Finland and France -, ESAD has finally managed to finalize this long-term project aiming at offering the inhabitants of the senegalese city of Kaolack medical equipment which is currently sorely lacking.

### A CONTAINER AWAITING FOR YOUR HELP

The ESAD Association, which has since several years conducted humanitarian projects in Senegal, needs your help for an ambitious and necessary project.

After having obtained a 40 feet container full of hospital furniture and equipment in Finland, we are still missing the funds to pay the transport costs to Senegal.

The total transport costs amount to 7.500 €. We are therefore calling upon your generosity to help the most destitute populations in Senegal.

For further information, please contact our project coordinator, Mr. BERNALEAU (Tel: +33612977670).

You can send your donation to our association by cheque payable to ESAD or by bank transfer to our account: FR95 2004 1010 1267 0453 6E03 364 (please indicate « MEDICAL » in the object).

### ACTIVITIES CARRIED OUT

- **Agricultural actions:** ESAD collaborates with its local partners in order to exploit an agricultural land of 11,5 ha in Kahone.
- **Social actions:** ESAD participates to the distribution of free meat to the most destitue households for Tabaski.
- **Civic actions:** during the rain season, ESAD supports the victims of floods and the families who have suffered damage.
- **Solidarity actions:** ESAD collects clothes to send them to the poorest populations in Senegal.
